

MOSTAFA ABDELAZIZ

Retail & Supply-Chain Analytics Manager | AI Automation & Data-Driven Decision Making

Cairo, Egypt • +20 111 851 2038 • mostafasad007@gmail.com

[linkedin.com/in/abcmosta](https://www.linkedin.com/in/abcmosta) • [Portfolio](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Analytics and operations leader with 5+ years spanning retail, e-commerce, and large-scale fulfillment across MAF (Carrefour), Amazon, and Delivery Hero (InstaShop). Proven record of turning data into measurable business impact — reducing inventory defect rates from 26% to 3% and DPMO from 530K to 285K through SQL-based measurement systems, root-cause modeling, and pilot-then-scale experimentation. Combines hands-on analytics (SQL, Excel/VBA, dashboards) with modern AI automation — building AI agents, data pipelines, and end-to-end tools that streamline merchandising, supply chain, pricing, and catalogue operations. Comfortable partnering with senior leadership (CXOs) to translate business questions into analytical solutions that drive customer and revenue growth.

CORE COMPETENCIES

- | | | |

| › Segmentation & Churn Analysis | › Dashboards & Data Visualization | › Excel / VBA Automation |
| › Process Improvement (Lean/Six Sigma) | › Cloud Concepts (AWS / Azure) | › Stakeholder Management (CXO) |

PROFESSIONAL EXPERIENCE

Associate Manager — Marketplace Operations

May 2026 – Present

Majid Al Futtaim (MAF) Retail — Carrefour Marketplace

New Cairo, Egypt

- Lead end-to-end catalogue analytics and operations across marketplace platforms, managing thousands of SKUs and complex category structures for Carrefour UAE, KSA, and Egypt.
- Built AI-powered automation tools and agents for quality control, content cleansing, and barcode validation — cutting manual review effort and standardizing listing accuracy at scale.
- Developed category-mapping and upload-compiler solutions (2,000+ categories) that convert vendor files into ready-to-publish listings, accelerating seller onboarding.
- Partner with cross-functional and leadership teams to monitor performance metrics, surface catalogue insights, and drive data-informed merchandising decisions.

ICQA Program Manager — Inventory Control & Quality Assurance

Jan 2025 – Mar 2025

Amazon Egypt

Cairo, Egypt

- Led inventory-accuracy analytics in a high-volume fulfillment center, applying DPMO and cost-impact models to prioritize corrective actions.
- Reduced ERDR DPMO from 530K to 285K quarter-over-quarter through defect-trend analysis, root-cause modeling, and targeted interventions.
- Designed an SQL-based counting system for weekly/monthly reconciliation, cutting high-dwelling-age defects from 26% to 3% and improving inventory integrity.
- Sustained APMT DPMO improvements (>800 vs. 1.4K) by modeling associate behavioral errors and eliminating operational inefficiencies.

ICQA Lead — Inventory Control & Quality Assurance

Oct 2023 – Dec 2024

Amazon Egypt

Cairo, Egypt

- Led a team of 50+ associates to meet inventory-quality standards, using real-time performance data to allocate labor and remove shift barriers.
- Standardized manual injection-count methods and drove continuous-improvement projects using Lean and Six Sigma methodologies.
- Delivered coaching and data-backed feedback on productivity, quality, and safe practices across all departmental processes.

E-Commerce Catalogue & Content Specialist

Apr 2025 – May 2026

InstaShop (Delivery Hero) Cairo, Egypt

- Created and optimized product listings across multiple verticals — managing databases of barcodes, prices, images, and tags for accuracy and discoverability.
- Optimized bilingual (Arabic/English) content for SEO — improving search visibility and customer conversion.
- Collaborated with vendors, buyers, and suppliers to gather complete product data and maintain consistent brand representation.

SDS CASE Specialist & MENA Associate — Escalations / Shipping & Delivery

Sep 2021 – Apr 2023

Amazon Egypt

Cairo, Egypt

- Conducted data queries and analytics on escalation trends, driving process-improvement initiatives from scoping to implementation.
- Handled brand-trust, data-privacy, and logistics escalations across UAE, KSA, Egypt, and UK marketplaces; authored narrative investigation reports for senior leadership.

Technical Support Specialist — Internet Customer Care

Sep 2020 – Sep 2021

Vodafone Egypt

Cairo, Egypt

- Diagnosed recurring issues through call-log analysis and root-cause identification; maintained detailed records and tested new technologies to improve reliability.

KEY PROJECTS & IMPACT

- **IRDR Defect Reduction (26% → 3%):** Built an SQL-based weekly/monthly counting system that transformed inventory record accuracy.
- **ERDR DPMO Optimization (530K → 285K):** Applied defect-trend and cost-impact modeling to halve defects in a single quarter.
- **AI Catalogue Intelligence Tools:** Designed AI agents and client-side apps for QC automation, content cleansing, and category mapping across Carrefour Marketplace.
- **Upload Compiler & Category Mapping (2,000+ categories):** Automated vendor-file-to-listing conversion, reducing onboarding time and manual error.

TECHNICAL SKILLS

Analytics & Data: SQL, Excel (advanced) & VBA, Data Analysis, Dashboards & Visualization, DPMO / Statistical Trend Analysis, A/B Testing & Incrementality, Segmentation, Forecasting

AI & Automation: AI Agent Building, Prompt Engineering, Workflow Automation, AI-Driven QC & Content Solutions, Rapid Prototyping (Python-based tools, React/Vite/TypeScript)

Cloud & Tools: AWS Concepts, Azure (transferable), GitHub / Codespaces, Office Scripts, Microsoft 365 Suite

Methodologies: Lean, Six Sigma, Process Improvement, Project & Program Management, Stakeholder Management

EDUCATION & CERTIFICATIONS

Bachelor of Business Administration (BBA) — Business Administration & Management

2020 – 2024

Helwan University, Cairo (English Section)

Certification in Transportation & Logistics (CLT)

LANGUAGES

Arabic (Native / Bilingual) • English (Full Professional)
