Mostafa Abdelaziz

Retail & Supply-Chain Analytics Manager | AI Automation & Agent
Building | SQL & Data-Driven Decisions | Ex-Amazon, Delivery Hero
Cairo, Egypt

Summary

I turn operational and customer data into measurable business
impact — reducing inventory defect rates from 26% to 3% and
DPMO from 530K to 285K through SQL-based measurement and
root-cause modeling. Alongside classic analytics, I build AI agents
and automation tools that streamline merchandising, pricing, and
catalogue operations at scale.

Experience

Majid Al Futtaim
Associate Manager - Marketplace Operations | MAF Retail
May 2026 - Present (4 months)
New Cairo

- Built AI agents & automation tools for QC, content cleansing, and 2,000+ category mapping
- Managing end-to-end catalogue operations across marketplace platforms, ensuring high-quality product listings.
- Leading onboarding and optimization of seller product catalogues, enhancing content quality and discoverability.
- Collaborating with cross-functional teams to improve catalogue structure and monitor performance metrics.
- Drove automation and process improvements, increasing efficiency and supporting carrefour clients with best practices and automation drafts.

instashop
